Dear friends of Spinclusion,

We are proud to present our annual report for 2021-2022.

Our mission is to bring piloted adaptive bicycles to seniors, veterans, and the less able bodied to provide social interaction, movement, and the opportunity to enjoy the outdoors. This report provides an overview of our work in the past year and our financial status.

This year was a busy one for us. In 2022, we answered the call for inclusivity by piloting two adaptive bicycles in the Hampton Roads community and provided rides for over 250 passengers in the community. We fully funded this year's needs, including the purchase of two adaptive bicycles, and are 100% debt free. We exceeded our fundraising and ridership goals, welcomed new partnerships and participated in multiple community events to show what diversity, inclusivity, and equity mean in the bicycling world. Our work has made a real difference in the lives of our passengers, volunteers, and the Hampton Roads community as a whole. In 2023, we look to not only increase ridership and efficiency, but to create more community volunteer opportunities as well.

Thank you for your ongoing support. We hope you will continue to stand with us as we work to make the Hampton Roads community a better place!

Sincerely,

Diane Haupt
